

ProClean Keyboard Cleaner

Professional cleaning of computer- and notebook keyboards

This keyboard cleaner is perfect for professional cleaning of computer- and notebook keyboards.

Four inner pump-injectors spread the alcohol-based cleaning fluid directly on the sponge to enable constant moisturization and to avoid inhalation of the cleaning fluid. The especially shaped sponge removes dirt and bacteria on contact surfaces and between without damaging the print on the keys. The professional set includes one bottle of cleaning fluid which is enough to clean more than 350 keyboards. The dispenser can easily be exchanged and screwed on to the ergonomic and PVC-free handle.

Features:

- Ergonomic keyboard cleaner for professionals
- 65 ml (2.2oz.) alcohol-based cleaning fluid
- 2 sturdy sponges
- Professional all-in-one solution
- Easy to handle and functional danish design
- Enough for approx. 350 keyboards
- PVC-free handle and no free aerosol
- Designed by Tools Design
